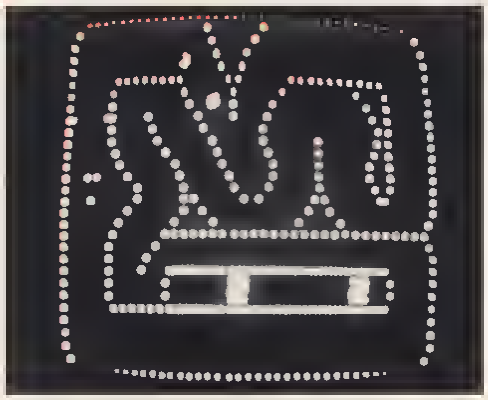
GRAN TRAK 20™

A new 2-player (or single player!) version of the greatest money maker ever! · Fantastic sound effects of big car racing action · Free game feature for minimum 40 point score · Realistic two car race competition

GRAN TRAK 20™



- **Players:** Score game points as they pass through designated points
- **Cars:** Players start side by side, trailing car causes car ahead to crash by passing through it
- **Score:** Lets the player know how many points he has
- **Track:** If either driver hits track barriers, he crashes, spins out, and loses time. And the crash sounds are unbelievable!
- **Oil Slick:** Car passing over oil slick automatically causes brakes to lock, car skids, and player must skillfully control car to avoid crashing

Double your pleasure . . .
Now TWO players can get Trakking with the real action of being on a Gran Prix race course in a dual match race. (One person can also play alone.) But watch out! There's a brake locking oil slick in the middle of the track. Players get true race car feel, and fantastic sound effects as they round the curves and shift into a higher gear while trying to outrun their opponent. Each player has his own car, steering wheel, gas and brake pedal, and 4 speed shift.

Double your earnings . . .
YOU get the roar of TWO quarters in the slot instead of one (one driver can play alone, for one quarter). If a player reaches the required minimum of 40 points, a *free game* is automatically credited to *both* players. This feature is an operator option, and may be disconnected with ease. Free games are not granted if the 40-point score is again obtained during a free game.

Reliability you've come to expect . . .
Sound levels are adjustable, and completely solid state. Gran Trak 20 is built to keep working. Rugged cabinet construction, completely solid-state 23-inch television monitor, full year warranty on the computer board, all add up to make the game reliable, profitable, and trouble-free!

Dimensions

Width: 46.5" (118cm)
Height: 64" (160cm)
Depth: 33" (84cm)
Weight: Approximately 400 pounds (180 kgs)

It's Fantastic! To get Trakking with Gran Trak 20, contact your Atari distributor or — Atari, Inc., 14600 Winchester Boulevard, Los Gatos, California 94030 (408) 374-2440. Telex: 35-7488.
